### FACTI Panel Final Report Launch

This event brought the FACTI Panel chairs together with high-level representatives from Member States. The report provides evidence-based recommendations, building on the successes and ongoing work of existing mechanisms addressing the identified challenges for tax cooperation, anti-corruption, and anti-money laundering. It contributes to the overall efforts undertaken by member states to achieve the vision 2030 agenda...[Read more](#)

### BLOG: Leveraging on Mineral wealth to mitigate the effects of the COVID-19 Pandemic.

Mineral resources in Kenya mostly benefit the country through the taxes paid by mining companies. According to government estimates, the extractives sector contributes to just one percent of the country's national income and less than two percent of total export earnings. These figures are expected to grow significantly with more mining discoveries and vastly unexplored natural resource wealth...[Read more](#)
